

Plastic Extinguisher Cabinets

Durable, surface mounted fire extinguisher cabinets that are resistant to the elements. Body and frame are constructed of injection molded red or white virgin high-impact crystal polystyrene with ultra-violet inhibitors (.110 wall thickness). The cover is constructed of virgin acrylic (.080 thickness).

Cabinet includes cylinder lock and key along with a polypropylene injection molded plastic hammer with flexible torsion, ribbed grip surface, and clear nylon-jacketed stainless steel mechanical cable.

- Made in the USA
- Rust proof
- No sharp corners or glass to shatter
- Pitched drainage and natural ventilation
- Available in red or white
