

## Flush Mount High Pressure FDC Inlet

Designed to provide supplemental water to a building's fire protection system. These units feature a body that's typically concealed behind a wall with only the plate, snoots, and plugs exposed.

600 PSI max operating pressure.

FDNY Approved. Contact us for current approvals.

- **2-way standard equipment:** Units are equipped with a 600 psi rated 316 stainless steel clappered concealed FDC body w/ 3" F NPT threaded inlets, a satin chrome wall plate, 600 psi rated 316 stainless steel 3" F NPT x 3" F NYFD swivel snoots, and 3" iron plugs with chains. The plugs are painted either red, yellow, or green, to correspond with the system type per NYC code requirements.
