

## Storz Caps

A Storz cap is used in combination with a Storz connection to prevent debris from entering the system. It can be secured to a Storz connection with a simple 1/4 turn, thus, locking it in place. Includes a suction gasket.

- Forged aluminum T6061
- Chain included
- Polished chrome, and polished brass available upon request

Part #	Size	Style	Finish
SZCAP25K	2½"	Standard cap	Grey Powder Coat
SZCAP4K	4"	Standard cap	Grey Powder Coat
SZCAP5K	5"	Standard cap	Grey Powder Coat
SZCAP6K	6"	Standard cap	Grey Powder Coat

## Storz Test & Bleeder Caps

A hard-coated forged aluminum T6061 Storz cap with a pressure gasket, used to facilitate system testing. A suction gasket must be specified. Test caps include a 1" Female NPT tapping. 1/4" and 1/2" tappings are optional. Bleeder caps include a Petcock valve.

Part #	Size	Style
SZ4CAP-TEST	4"	Test cap with 1" Female NPT tapping
SZ5CAP-TEST	5"	Test cap with 1" Female NPT tapping
SZ6CAP-TEST	6"	Test cap with 1" Female NPT tapping
SZ4BLEEDCAP	4"	Bleeder cap with Petcock valve
SZ5BLEEDCAP	5"	Bleeder cap with Petcock valve
SZ6BLEEDCAP	6"	Bleeder cap with Petcock valve

### Specify Options:

- 1/4T 1/4" NPT Tapping
- 1/2T 1/2" NPT Tapping
- SG Suction Gasket
