Spanner Wrenches

Spanner wrenches and hydrant wrenches come in multiple varieties. Spanner wrenches are typically designed for use with storz caps, threaded caps, and plugs, whereas, hydrant wrenches are designed for operating fire hydrants.

- For pentagon hydrant nuts up to 1¾" from point to flat
- Notched to fit 1¼" square hydrant nut
- Spanner for pin lug and rocker lug couplings, 1½" thru 6"
- Plated iron head, 7/8" plated steel handle
- Overall length: 18"

- Aluminum Or steel varieties
- Aluminum can be used with ¾" to 3" pin lug or rocker lug couplings
- Steel can be used with 1" to 4½" pin lug or rocker lug couplings
- Includes built-in pry bar on one end
- Overall length: 11¾"

- One piece aluminum construction
- Fits 2", 3", 4", and 5" storz couplings

- For pentagon shaped nuts up to 1-7/8" and square heads up to 1-1/2"
- Fits 3/4" - 6" rocker lug or pin lug couplings, can also be used for long handle couplings
- Ductile iron head with a deeply knurled chrome plated steel handle
- Replaceable adjustable jaw is made of manganese bronze
- Overall length = 19-1/2"

- Can fit caps and plugs that have a 1½", 2", 2½", or 3" diameter.
- Plated Iron
